## Inclusion and Diversity

---

I am deeply committed to supporting peers and students from all backgrounds. In both my scientific research and teaching, it is important to create an inclusive environment where every individual is welcomed and provided with equal opportunities to thrive and contribute. I believe that it is our collective responsibility to welcome and celebrate diversity, ensuring that future generations of scientists benefit from a positive, diverse, and equitable academic ecosystem.

Thank you for your time and consideration, I look forward to hearing from you.  
Sincerely,

**Matthew Black**
